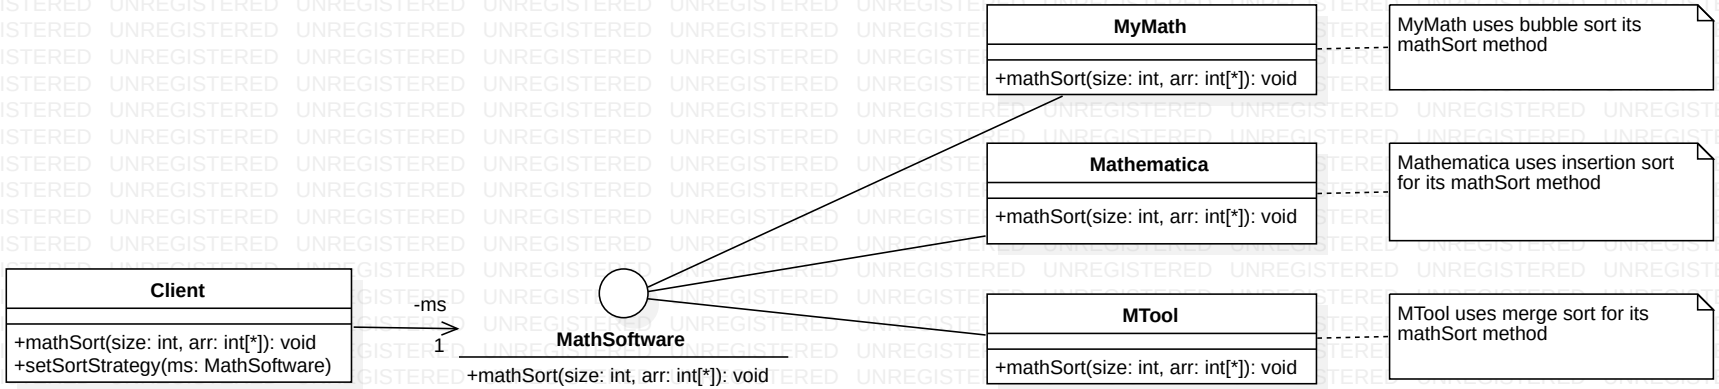
Model.Main



MyMath
+mathSort(size: int, arr: int[*]): void
MyMath uses bubble sort its mathSort method
Mathematica
+mathSort(size: int, arr: int[*]): void
Mathematica uses insertion sort for its mathSort method
MTool
+mathSort(size: int, arr: int[*]): void
MTool uses merge sort for its mathSort method
Client
+mathSort(size: int, arr: int[*]): void
+setSortStrategy(ms: MathSoftware)
-ms
1
MathSoftware
+mathSort(size: int, arr: int[*]): void
